

NF 131B PUMPS

Brief

NF series water pumps are single stage centrifugal type having high volumetric capacity and low-pressure head. This type of pumps suitable for both civil and industrial application.

Pump impeller material is brass and has silicon carbide mechanical seal this make the pump suitable for both clean and corrosive materials.

Main Features

Pump body: cast iron.

Impeller: Brass.

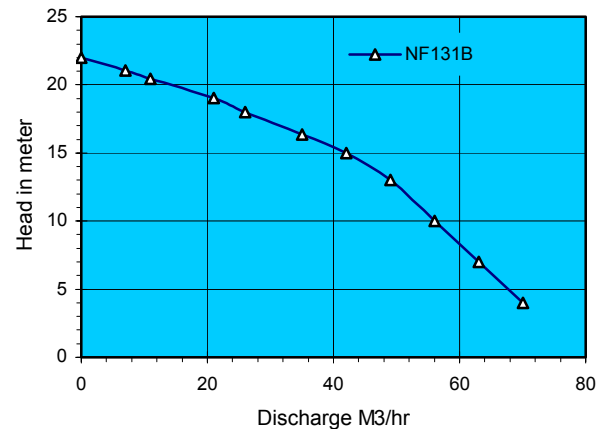

Motor: heavy duty closed and externally ventilated (3 phase type, single voltage 230V 60 Hz).

Inlet and outlet: 4" x 4" BSP pipe thread.

Voltage: Single voltage, 3 phase 230V 60 Hz

Overall dimension: 423 mm (length) x 230 mm (Width) x 300 mm (Height).

Characteristic Curve

Characteristic Table

Discharge m ³ /h
